**EMBACO**

## About us

### Established in Copenhagen in 2011

EMBACO has rapidly grown to become one of Europe's leading supplier of high quality, customisable, and sustainable packaging.

Now, with multiple offices throughout Europe and an international client base, EMBACO is trusted by the most popular brands in the food, beverage, personal, health, and home care industries.

### We collaborate for your success

We partner with you to ensure you receive the best products and services for your needs. Our in-house teams enable flexibility at every stage of the process meaning we can customise our products and processes to suit your unique circumstances.

### What our clients say:

*"We've been working together with EMBACO since the beginning, that speaks for itself. They are quick to respond, know everything about the business, and are flexible. They work fast and it's been a really good experience. Highly recommended."*

– Christian Bowall, Founder, Frankly Juice

## Services

### Flexible to suit your needs

Every customer is unique and we will work closely with you to create a solution to fit your specific needs. We can tailor every element of our process and product so you will receive the perfect packaging for your schedule, product, and market.

### Low MOQs for easier market entry

Our PET products can be ordered in quantities as low as 20 boxes/1 pallet, our coloured bottles as low as 20,000 pieces, and our rPET products or printed closures as low as 50,000 pieces.

### Enabling sustainability at every stage

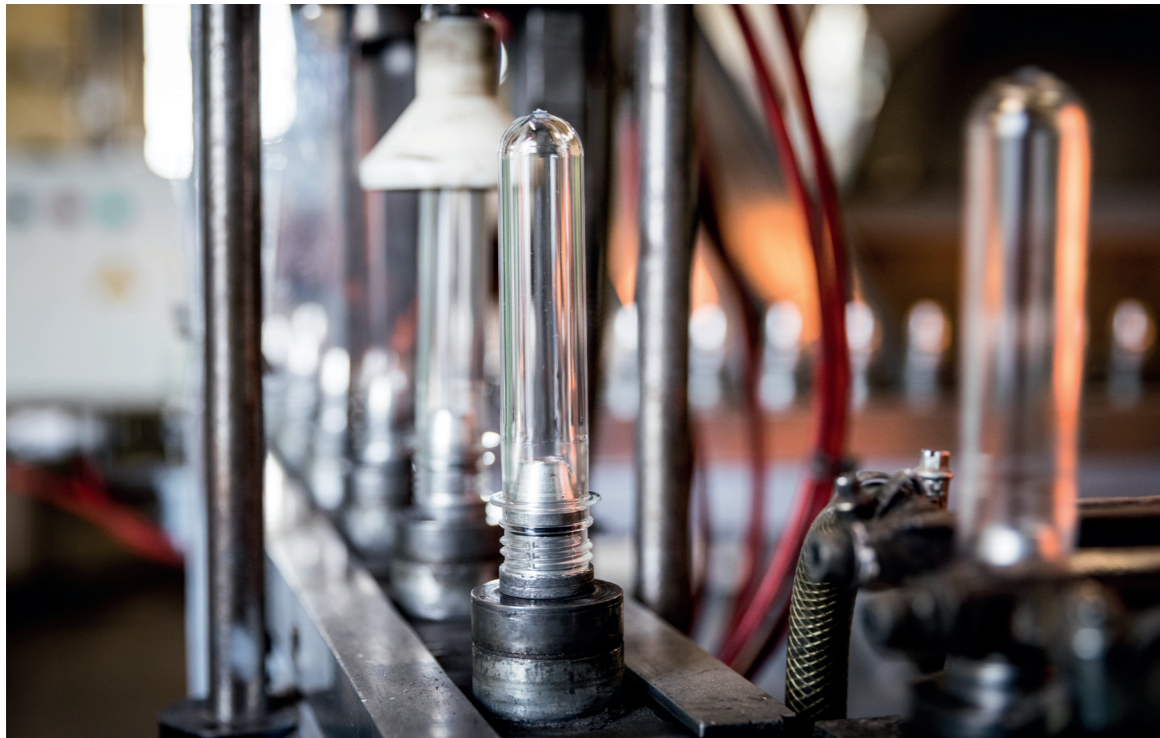

All of our bottles and jars are available in rPET. They are produced locally in Europe using 100% renewable energy, the highest quality recycled granulate, and energy-saving German machinery and Japanese moulds. This means fully recyclable, lightweight, shatterproof results with lower carbon emissions.

### Exclusive custom designs & unique shapes

Our specialised single-stage injection stretch blow moulding (ISBM) process means we can deliver unique sizes that get attention. Our designers can create unique shapes using bespoke moulds. Add in beautiful colour combinations, coloured caps and closures, embossments, and label design to stand out.

### Delivered to suit your filling schedule

Our in-house team controls logistics so you'll get great transport rates, fast lead times, plus be able to choose the batch size, the delivery date, and locations that suit you.

## Production

**Declaration of Conformity documents and Migration Tests are available upon request**

**Food Safety Certified (FSSC) ISO 22000:2005**

**Bottles and jars production:**

- Made in Europe using low energy-consumption German machinery, & Japanese moulds
- Using the highest quality resin or up to 100% recycled granulate and flakes
- Using 100% renewable green energy
- Using Single-Stage (Hot Cycle) ISBM

**Manufacturing capabilities:**

- 180 million+ pieces production capacity
- 300 different standard products to choose from
- Both cold-fill (HPP suitable) and hot-fill products produced
- Suitable for induction heat sealing (IHS)
- Flexible to produce custom moulds and small batches
- Low MOQs for coloured products

**Quality & control standards:**

- Supplier control and verification according to ISO 9001
- Quality control measuring: weight, height, volume, brim-full, top load, material distribution & colour
- Full regulatory compliance

**What our clients say:**

*"We are so happy. EMBACO are reliable, the prices are good, they get back to us quickly, and there are never any stock problems. Previous suppliers have not been able to keep up with demand and that is very annoying for us. It is very important for us that we can rely on delivery, and with EMBACO, we can."*

- Nicolas Dorff, Owner, SV Michelsen

## Customisations

**UV Barrier Additive**

We can mix in a UV barrier additive to the rPET or PET master-batch during the production of our bottles and jars.

**Oxygen Barrier Additive**

We can add an Oxygen barrier additive to the rPET or PET master-batch during the production of our bottles and jars.

**Custom Colours**

We can produce PET and rPET bottles and jars in any custom colour you require.

**Standard Colours**

Our bottles are available in Natural Olive Green, Bottle Green, Amber, Blue, and Red, or Solid in White, Silver, or Black. All of which are available in a Glossy or Matte finish.

**Graphic Mockups**

For custom bottles, we create custom mould designs, meaning we can create almost any shape you wish for.

**We can provide:**

- 3D printed versions of your customised product
- Mock-ups of the design by our inhouse graphic designer
- Samples of the product

**Additional Services:**

- Primary & secondary packaging
- Custom-printed caps
- Custom-printed labels
- Label application
- Semi-applied caps
- Packing to custom specifications
- Custom-printed pallet labels
- Safety stock stored in warehouse
- Screen printing on bottles
